six hours of graduate credit to be taken concurrently with the remaining baccalaureate course requirement. For example, a student who began the Master's Degree program in June 1962 must have completed all requirements for the degree by September 1, 1969.

COMPLETION OF DEGREE REQUIREMENTS

In completing requirements for the Master of Education degree the student must follow these additional procedures:

1. Present following admission to candidacy a brief outline of the research project if this option is chosen. If approved, the candidate is usually assigned a second advisor. For those electing the research project, the completed project must be submitted to the advisors by March 1 of the year in which the degree is expected.
2. Completesatisfactorily the written examination for the degree by April 1 of the year in which the degree is expected.

Three copies of the project with the signatures of the advisors must be filed by this date with the Director of Graduate Studies.

APPLICATION FOR DEGREE

All candidates for the degree must, at the beginning of the final semester, make application on the appropriate form to the Registrar and pay the required fee. A new application must be completed when a student finds it is necessary to postpone graduation.

FACULTY ADVISORY SYSTEM

On admission to the Master's Degree program, the student is assigned a faculty advisor in the appropriate field of study. Those enrolled in the degree program must submit each application for courses to the faculty advisor for approval of courses selected. The graduate programs of all students should not be just a matter of collecting a stated number of credit hours but should have some reasonable plan and objectives. The major responsibility for advising

graduate students rests upon the faculty advisor. Although the individual student is personally responsible for meeting all requirements and deadlines, the faculty advisor and/or department chairman are responsible for certifying to the Director of Graduate Studies that certain requirements have been met.

REFUND AND WITHDRAWAL PROCEDURES

To receive all funds due on withdrawal from classes, the withdrawing student must submit a completed official withdrawal card to the Office of the Registrar. Refunds to students are computed on the basis of the date on which this card is filed with the Registrar. Students failing to comply with this regulation forfeit all rights to refunds and receive a grade of F for courses dropped unofficially.

Part-time students (except in summer) officially withdrawing from graduate courses within two weeks following the Registration Day for such courses will receive a refund of tuition less \$10.00. *After the initial two weeks, no refund is made.*

GRADUATE COURSES

Courses at the 500 level are available for graduate credit only. Courses at the 400 level appearing in the list which follows may be taken either for graduate credit or for advanced undergraduate credit. Graduate students enrolled in such courses are expected to do graduate level work. "The work of graduate students registered in a 400-level course, to which undergraduates are also admitted, should be superior to that of the underclassmen. It is the responsibility of the individual instructor to define precisely the quality and/or quantity of work that he expects from the members of the class.

It follows that the instructor may reasonably anticipate work of the highest level of competency from those graduate students enrolled in a 500-level course."
